

Sandals collection 2025

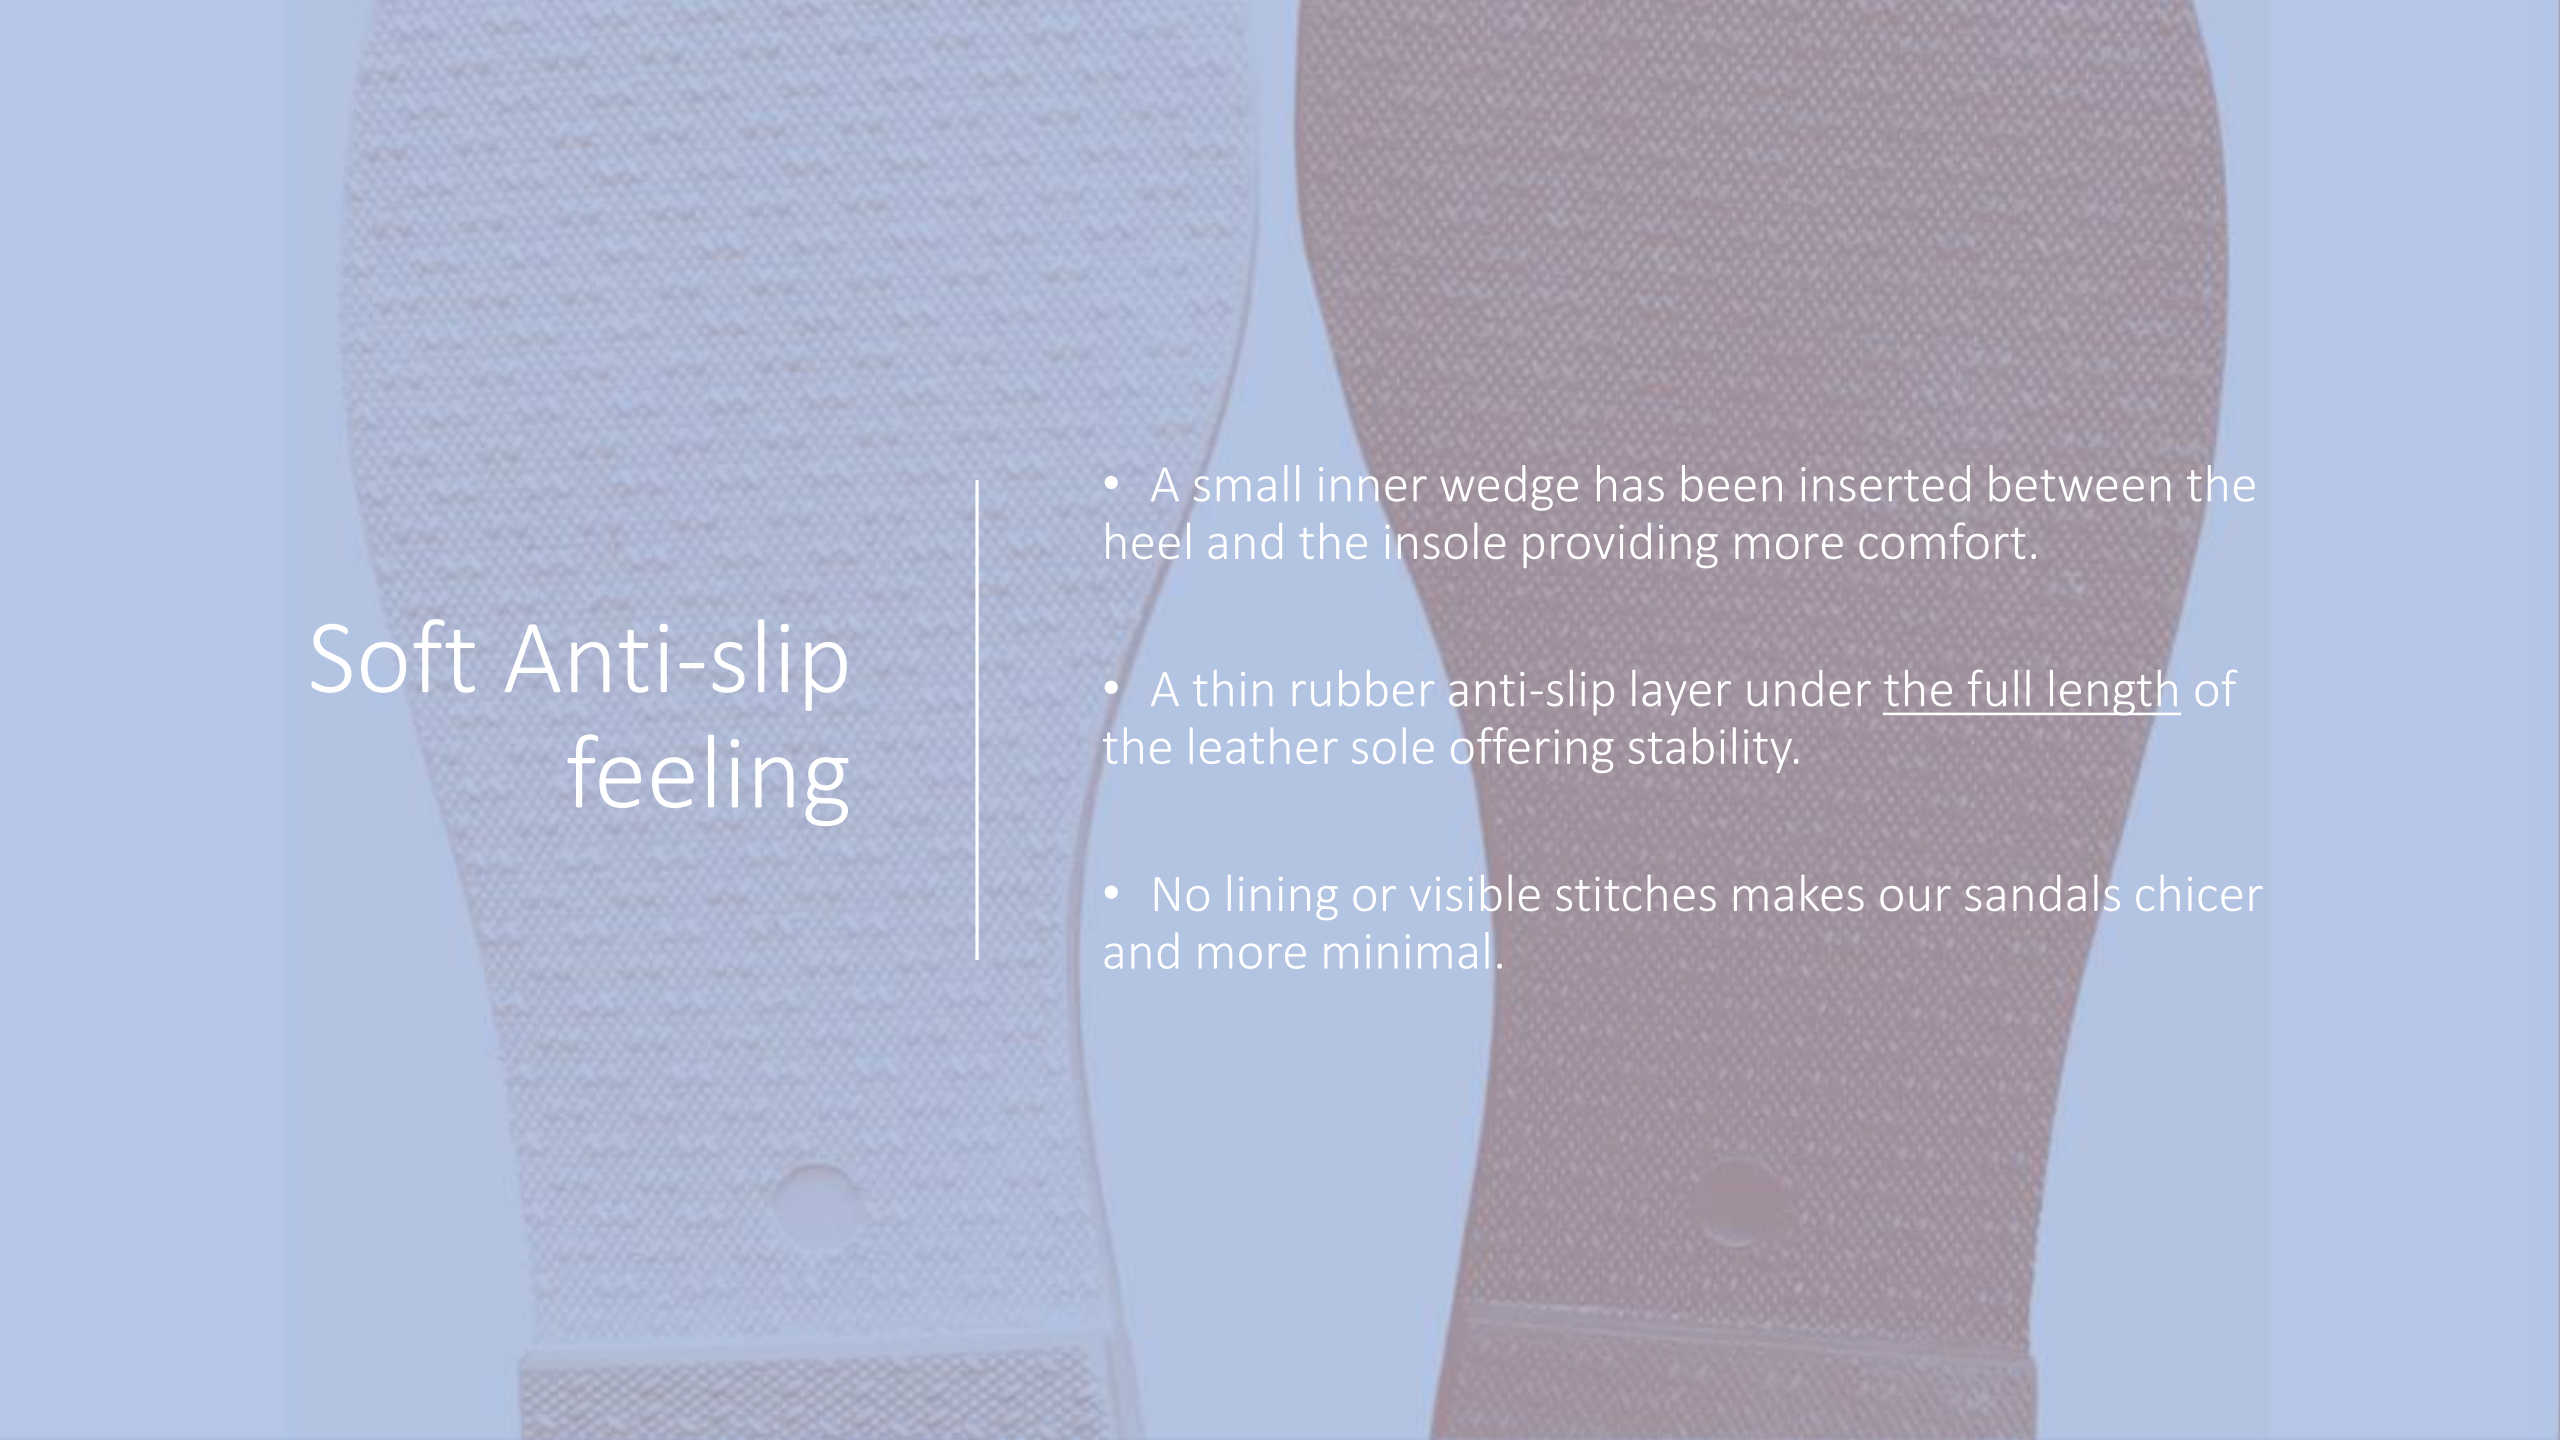

Ciel is a fine brand
of handmade
leather creations,
Traditional
craftmanship
combined with
stunning
contemporary
designs.

Ciel U.S.A. creates handcrafted sandals and handbags made of fine genuine leather or soft suede. All our models are designed in US and are hand crafted in Greece by our well experienced craftsman team.

Inspired by the simplicity and minimalism of Hellenic style and the elegance of the boho chic style, our items are addressing to young girls who just love fashion!

We use chemical free leather for all our items and process it with certified ecologically friendly methods. The chemical free, natural leather ages beautifully with time and wear.

We are proud to announce that all our products are handmade in Greece!

Soft Anti-slip feeling

- A small inner wedge has been inserted between the heel and the insole providing more comfort.
- A thin rubber anti-slip layer under the full length of the leather sole offering stability.
- No lining or visible stitches makes our sandals chicer and more minimal.
