REIMA EARLY AUTUMN 2026 FOOTWEAR COLLECTION

A close-up photograph of a blue and black sneaker stepping into a muddy puddle. The shoe is heavily splattered with dark mud, and a black pant leg is visible above it. The background is a blurred, natural outdoor setting with more mud and some greenery.

Weatherproofing
kids since 1944

HIGHLIGHT CONCEPT

UNLIMITED.

Protection in action
& changing weather

Reima clothes and shoes are for kids who push their boundaries and enjoy the ride as they transition from school to sports.

They're ready to go further, faster, and freer than ever – with less wind, less water, and less sweat.

MEASURING THE FOOT

Have your child stand on a paper, heel against the wall. Mark the foot length on paper and measure the distance on the end of the sheet.

FOOTWEAR

EU size	US size	UK size	CN size	JP size	Recommended foot length (mm)

34/35	2.5/3.5	2/3	205 (1,5)	21/22	209-221

KEEPING HEALTHY KIDS' FEET HEALTHY

To help a child's motor skills develop normally, it's important to choose the right size and shape of shoe. Parents must also follow the growth of the feet to make sure the shoes fit properly.

Happy Fit makes measuring easy

You can check the shoe size by taking out the insole, so that the child can stand on it. In total, the length of the foot + 1.5 cm for growth and operating reserve is necessary. Most Reima shoes have the "Happy Fit" print in the removable insoles to help you find the correct size.

Smaller allowance for barefoot shoes

For barefoot shoes, a smaller reserve is recommended. The extra space for growth and movement in barefoot/minimalist shoes should ideally be around 1.0 - 1.2 cm.

Go for technical socks

A 100% cotton sock will feel cold when it gets sweaty. Socks with synthetics that wick moisture away from the skin are a better choice for waterproof shoes. In cold times, socks with wool will be warm even when moist.
